

Thieu Quang Thang

Software Intern

ABOUT ME

I am a fourth-year student majoring in Software Technology at Quy Nhon University. I have accumulated experience in programming languages such as PHP, Java, and C++, I am very eager to apply these skills to real projects. Through academic and personal projects, I have developed a deep understanding of software design, algorithms, and problem-solving. I am very excited about the opportunity to grow in a dynamic technology environment.
